

Cape Town Township tour :

Township - Kirstenbosch Botanical Garden .

Township tour : The tour starts at District Six, with a short explanation about the history of this neighbourhood, involving thousands of people who were driven out during Apartheid. After this, we continue to Langa, the oldest township from Cape Town where we first experience a church service with gospel music.

Kirstenbosch National Botanical Garden: against the Eastern slopes of Table Mountain, we find the grandeur of one of the world's most beautiful gardens. Besides a vast range of amazing indigenous flora, like the Protea family, there is also South African art and music to be savoured in this magnificent setting.
